Planned Building Improvements at our School!

A while ago, we applied for some 'Condition Improvement Funding' (CIF) as we were beginning to get concerned about the deteriorating condition of the flat roof on our school and our heating system. Whilst the heating system is still functioning well, it is so old, if it fails we would struggle to get parts to fix it. We are really pleased that both our applications for funding were successful!

Due to the national delays on last years' projects, we were told not to expect either project to start before late in the Summer Term 2022, however, having met with the project management team yesterday, they are able to start the roof works imminently! It is possible work will start on Monday 15th November and if not then, within a couple of weeks of this date.

The way in which the roof project is delivered, means that no classes will need to move and life in school can continue as normal. The company that we are working with are very experienced in delivering projects in schools so understand the importance maintaining continuity for the children whenever possible.

There will be scaffolding and safety fencing up around the outside of some of the building, however this won't impede any of the use of our playground or access routes.

I will update you next week with further details.

Christmas School Lunch

Our last day of term is Thursday 16th December and it is when we will be having our Christmas lunch. The menu for the day is now available to order (order in the usual way with ABM). The last day that you can order the Christmas lunch is Friday 10th December. We will send a reminder again nearer the time.
